ESOS Regulations and Compliance

The Education Services for Overseas Students Act ESOS Act 2000, the ESOS National Code, the ESOS Regulations 2001 and the student specific parts of the Migration Act 1958 have been designed to ensure students receive the tuition and education quality assurance they have paid for. The College is also aware these documents specify the registration requirements and obligations of education providers in Australia.

The ESOS Act places responsibility on the College not only for its own actions but also for those of third parties including agents and associates and their employees and contracted parties.

Further information regarding ESOS is available via the links below:
