The Singapore Tour is unique to PCW Melbourne, and is the only one of its kind being run in Australia!

It is aimed at Years 10 and 11 Students and has a strong Academic and Educational focus. Participating students will discover new ways of learning which they can use to enhance their Australian school experience upon their return. Our girls will be given unprecedented access to experience classes and activities as active participants. This access is not usually given to foreign visitors and is usually reserved for local Singaporean students. All this is made possible through our Partnerships with Republic Polytechnic and CHIJ Secondary School.
