Vietnam Trip

In an effort to facilitate this understanding, Students will spend an afternoon working at an orphanage to develop true empathy with the plight of the country’s less fortunate children.

Our trip will begin with exploring the ancient city of Hanoi. Then we travel to magnificent Ha Long Bay, recently accredited as one of the new Seven Natural Wonders of the World.

Later we will journey south on the historical Reunification Express train to visit the Imperial City of Hue and the terminus of the famed Silk Route, Hoi An. The trip will also include an excursion to the Cu Chi Tunnels and a homestay experience in Vietnam’s rice-bowl, the Mekong Delta.

The Educational Tour of Vietnam will provide students with a memorable and fulfilling introduction to one of the friendliest countries in Asia. It proves that learning and enjoyment go hand in hand.
